DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-6 is the inclusion of the limitations: "writing a plurality of basic first databases into a memory of each of a plurality of clients wherein each first database comprises comparative data between a plurality of test program names and a plurality of test programs, and a window picture and a color of each test program, providing a window by each client for permitting the test person to select a test program to be tested, reading the test program and a window picture and a color thereof from each first database in the memory based on the selected test program on the window; causing the server to run the test program at the client; causing the client to receive a test finish signal sent from the server after the server has finished the running of the test program".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
